- Goal is to increase BSA, instead of a one-time funding.
 - If the City contributes additional funds the Impact Aid calculation from the State would not be affected in a negative way.
 - Noted budget request of 1.7 million would provide the school the assurance that no programs would be cut.
- Spoke in support of 1.7 million contribution.

- Commented that Representative Edgmon felt comfortable that the bill to increase the Base Student Allotment was going to go through, while he is uncertain about the Governor's stance on the bill.
- The governor presented the representative information on the position some schools are in with COVID funds and fund balances.
- Clarified if Resolution 2023-11 is adopted, additional aid can be added via amendment, without negatively impacting School's Impact Aid.
- Expressed concern on making a decision prior to FY24 City Budget rules.
- Noted that using time to gather more information would be the most beneficial to both City and School.
- Stated that the money is for the school, however the City budget is for the whole community including the kids.
